Plamor Lanes announced that they will be closing their doors at the end of April. It is a sad time for bowlers of the center and the Association to say good bye to a place called home by many bowlers. In an effort to keep bowlers I have sent the contact information to the remaining centers in hopes that the league will continue on. We need to encourage these bowlers to move to another center. Stars and Strikes is planning on offering leagues and will have the help of Michelle Swaim to see it through.

Also the schools that used Plamor as a home base will need to be relocated.

TNBA will be having it's first Hall of Fame Induction on March 3, 2018. The inductees are: Shirley Buford, George Cromartie(deceased), Percy Hawthorne, Ernest Reese, Roy Pope, Hosie Seal, Jr., Hosie Seal, Sr, Dave Smith, Sr., and Rosie F. Wade.

Congrats to all for your hard work and dedication.

We had 4 board members in attendance at the Lane Inspection Class given by Nationals: M Webber, D Millitello, L Keel and N Keel

There was not much new information that we did not already know. There are some changes for the upcoming season.

1. Synthetic Lanes will be inspected at 5 locations instead of 3. At all locations the inspection points will be 10 board on the left, 10 board on the right and the 20 board. Wood lanes will still be inspected at 3 locations like before.
2. The same measurements will be in the pin decks, but the measurement between kickboards will be from the inside of the panels where before we were supposed to make measurement and then add the thickness of the kickback plates. This makes our job a little easier.
3. For the 1st year (this summer) following the changes as long as the center gets inspected they will get a certification even without a reinspection of any lanes that are out of specification. Although they will be encouraged to fix all issues because all following years they will have to

pass the reinspection in order to get their certification.

4. Any new installations (new centers or new lane panels) will require level measurements to be within 0.030 inches instead of 0.040 inches which they hope will help keep lanes within specification longer.

Last item is the Alabama State Games will be taking online registration starting March 1st. Visit www.alagames.com for more information.
